RESEARCH & ACADEMIC INTERESTS

Web systems and software architecture; multi-tenant SaaS platforms; no-code/low-code website generation; developer tooling and frameworks. Seeking a Master's to deepen formal foundations in distributed systems and software engineering research.

EDUCATION

Bachelor of Software Engineering *Expected 2027*

Samarkand State University, Samarkand, Uzbekistan

- Diploma thesis: "Templates.uz — a modular drag-and-drop web constructor platform for users without programming knowledge."
- Architecture: JSON-based block model; six-table relational schema (users, pages, blocks, templates, domains, media); Laravel REST API backend; React component-based frontend (React DnD); JWT authentication.
- Scientific advisor: PhD Sh.Sh. Yarmatov.

PROJECT & ENGINEERING EXPERIENCE

Founder & Lead Developer — Templates.uz *2024 – Present*

- Designed and implemented a full website-acquisition and hosting platform: template marketplace, automated deployment, and subdomain-based multi-tenant hosting.
- Demonstrates independent system design, database modeling, and production deployment on Laravel, Livewire, MySQL, Redis, Linux and Nginx.

Open-Source Software — Author *github.com/iqbolshoh*

- Released reusable developer tooling including a PHP routing framework with middleware support and an authentication system (76 repositories, 2,300+ followers).

TECHNICAL SKILLS

Languages: PHP, JavaScript, TypeScript, Python, Java, C++

Web: Laravel, Livewire, React, Tailwind, REST APIs

Data / Infra: MySQL, Redis, Linux, Nginx, Git, Docker

HONORS, ACTIVITIES & LANGUAGES

- GitHub: Starstruck & Pull Shark achievements; 2,300+ followers.
- Competitive programming across Codeforces, LeetCode, AtCoder, Codewars.
- Languages: Tajik (native), Persian, Uzbek, Russian, English.
- [Add: scholarships, olympiad placements, GPA if strong, publications, IELTS/TOEFL score.]
