Products running **live** today

Every project below is in production with real users — from a SaaS website builder to CRMs, an online judge and Telegram ordering.

The screenshot shows the homepage of Templates.uz. It features a dark blue header with navigation links: Bosh sahifa, Biz haqimizda, Xizmatlar, O'zbek, Kirish, and Ro'yxatdan o'tish. The main content area has a large heading "Veb-saytingizni tez va oson yarating" in white and red text. Below it, a smaller line of text says "Templates.uz yordamida qisqa vaqt ichida ajoyib va moslashtirilgan veb-saytlar".

Templates.uz

templates.uz

SaaS platform: 400+ website templates and a no-code builder that publishes a site in minutes.

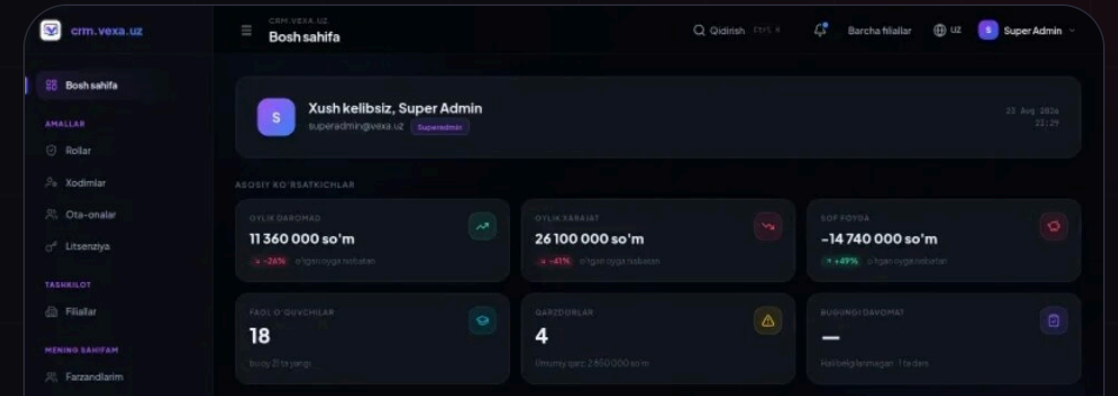

The screenshot shows the ALGOR Online Judge interface. It has a dark theme with a header containing "ALGOR", "Masalalar", "Mavzular", "Musobaqalar", "Reyting", "Kirish", and "Ro'yxatdan o'tish". The main content area displays a problem statement in Russian: "Dasturlash masalalarini yeching — natija darhol". Below the text, there are buttons for "Masalalarni boshlash" and "Ro'yxatdan o'tish — bepul". At the bottom, there are three small boxes showing statistics: 36, 27, and 124.

ALGOR — Online Judge

algor.uz

Solve problems in C++, Python or JavaScript; hidden tests return a verdict in seconds.

The screenshot shows the Vexa CRM for Education dashboard. It has a dark theme with a header containing "CRM VEXA.UZ", "Bosh sahifa", "Qidirish", "Foydalar", "Barcha Ma'lumot", "UZ", and "Super Admin". The main content area displays a user profile for "Xush kelibsiz, Super Admin" and a grid of statistics: "OYLIK DAROMAD: 11 360 000 so'm", "OYLIK XARAJAT: 26 100 000 so'm", "OYLIK FOSSA: -14 740 000 so'm", "FAOL O'QUVCHILAR: 18", "GAROZDORLAR: 4", and "BOSQIMCHI DAVOMCHILAR: 1".

Vexa CRM for Education

crm.vexa.uz

Multi-center CRM: groups, attendance, grades, billing and a Telegram bot for parents.

The screenshot shows the Café Freddo website. It has a light theme with a header containing "cafe.vexa.uz", "Menu", "Qanday ishlaydi", "Yetkazib berish", "Aloqa", "UZ", and "Buyurtma berish". The main content area features a large heading "Sevimli taomlaringiz — Telegram'da bir necha bosishda" and a grid of food images. Below the images, there is a text block: "Botni oching, taomlarni tanlang, joylashuvingizni yuboring — biz yangi tayyorlab, eshigingizgacha olib boramiz. Ro'yxatdan o'tish ham, ilova o'rnatish ham shart emas."

Café Freddo

cafe.vexa.uz

Telegram Mini App ordering with distance-based delivery and auto-printed kitchen tickets.

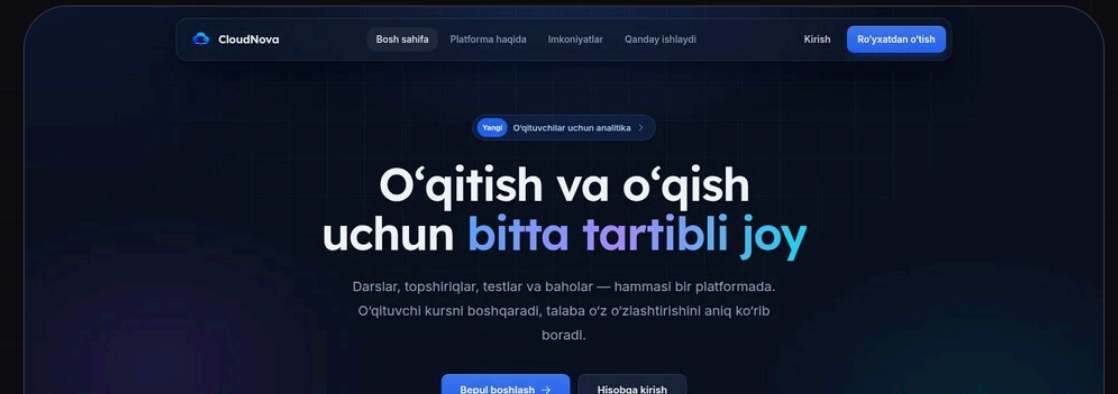

The screenshot shows the Prokat Sam Rental CRM interface. It has a light theme with a header containing "Prokat_Sam", "UZ", "Kirish", and "Savat". The main content area features a large heading "Bayram va tadbirlaringiz uchun onlayn ijara xizmati" and a text block: "Bayram va tadbirlaringiz uchun kerakli hamma narsa bir joyda. Onlayn tanlang, buyurtma bering — qolganini biz hal qilamiz."

Prokat Sam — Rental CRM

prokatsam.uz

Stock, rentals with a booking calendar, debts and real-time profit for a rental business.

The screenshot shows the CloudNova LMS interface. It has a dark theme with a header containing "CloudNova", "Bosh sahifa", "Platforma haqida", "Imkoniyatlar", "Qanday ishlaydi", "Kirish", and "Ro'yxatdan o'tish". The main content area features a large heading "O'qitish va o'qish uchun bitta tartibli joy" and a text block: "Darslar, topshiriqlar, testlar va baholar — hammasi bir platformada. O'qituvchi kursni boshqaradi, talaba o'z o'zlashtirishini aniq ko'rib boradi."

CloudNova LMS

cloudnova.uz

Online learning: courses, video lessons, assignments, auto-graded tests and progress.

— TEACHING & STUDENTS

I teach programming **from zero**

At **IT Markaz** in Samarkand I lead groups in C++, Frontend and Backend. Lessons are hands-on: students write code in the very first class and finish the course with a project of their own.

160+

Students in my groups at IT Markaz

3

Tracks: C++, Frontend, Backend

70+

Developers mentored before IT Markaz

Programming Fundamentals (C++)

Algorithmic thinking: variables, conditions, loops, functions, problem solving.

C++ · Algorithms

Web Development — Frontend

From page structure to interactive, responsive applications.

HTML · CSS · JS · React

Web Development — Backend

Servers, databases and APIs — one real project, start to finish.

PHP · Laravel · MySQL

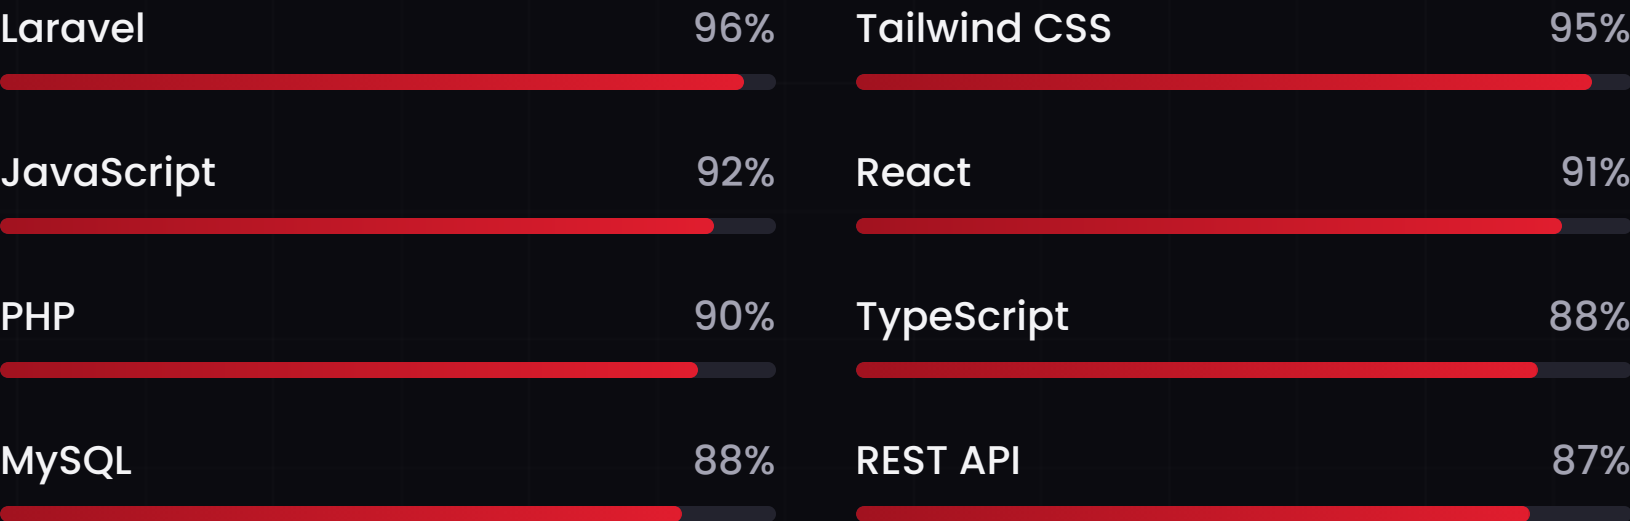

How I teach

- ✓ Practice first — code from lesson one
- ✓ Real projects instead of toy exercises
- ✓ Attendance, grades and homework tracked in a CRM I built
- ✓ Free tutorials on Instagram & YouTube

Let's build — or learn — together
